A round-up of the best products on offer this month

COOK UP A STORM

Red Letter Days is launching a new gourmet experience, the Indian Cookery masterclass. Participants spend part of the day in a commercial kitchen, learning how to cook a four-course Indian meal from starter to dessert. Afterwards they are treated to a five-course meal, complemented with

selected wines and champagnes and can take home menu cards so they can replicate the gastronomic creations of the day. The format provides an innovative way for team members to work together, planning and producing a gourmet meal and having fun. To find out more, visit www.redletterdays.co.uk.
